Dear Mrs Jane,

Please include this coversheet with anything you post to us at any time. This could be supporting evidence (for an application or a change of circumstance), correspondence and/or paper application forms. Your coversheet is the only way we can link your documents to your Bursary Online Support

Are you posting documents or supporting evidence to us for your NHS Bursary?

Are you handing in a Practice Placement Expenses claim to your university for us to pay?

You must **always** print your student coversheet from your Bursary Online Support System (BOSS) account and include it so that we can scan it and link what we receive to your account.

Not including your coversheet will cause you long delays in assessment and payment.
