**APPLIANCES (APPROVED LIST OF APPLIANCES - NOTES)**

---

---

**APPROVED LIST OF APPLIANCES**  
**See Part II, Clause 8A (page 8)**

---

The price listed in respect of an appliance specified in the following list is the basic price (see Part II, Clause 8) on which payment will be calculated pursuant to Part I, Clause 5B in respect of the dispensing of appliances.

**NOTES**

1. **Definition** - The appliances that may be supplied against orders on Forms FP10 are listed below and must conform with the specifications shown. See Part 1, Clause 2 (page 3). These specifications include published official standards ie BP, BPC or relevant British, European or International Standards or the Drug Tariff Technical Specification. It should be emphasized that any appliance must conform with the entry in this part of the Tariff as well as the official standard or technical specification quoted therein. Other dressings and appliances which may be necessary will normally be provided through the Hospital Services.
2. **Sealed Packets** - These are those which are "tamper-evident" - sealed with an easily detachable device that prevents removal of the contents without the seal being broken. Additionally in the case of sterile products: once a sealed package has been opened it should not be possible to re-seal it easily. Where an appliance, other than a bandage, required by the Tariff to be supplied in a sealed packet is ordered of a quantity or weight not listed in the Tariff, the quantity ordered should be made up as nearly as possible with the smallest numbers of sealed packets available for the purpose. Where the quantity ordered is less than the smallest quantity/weight, supply the smallest pack. The quantity of material in each packet supplied should be recorded on the prescription form.
3. **Quality** - Any medical device placed on the market in the UK has to be CE marked by the manufacturer in accordance with the safety, quality and performance requirements laid down in the EC Medical Devices Directive 93/42/EC and the Medical Devices Regulations 2002 (as amended) which transposes the Directive in to UK law. Manufacturers are required to obtain certification from a third party conformity assessment organisation known as a notified body for all but the lowest risk devices. Notified bodies have been designated as competent to undertake this function by the regulatory authority in the registering member state. In the UK this is the Medicines and Healthcare products Regulatory Agency (MHRA). There are a number of conformity assessment routes that the manufacturers can adopt to demonstrate conformity with the requirements of the Directive but the majority use a quality system approach. More details of the CE marking process can be obtained from the MHRA, 151 Buckingham Palace Road, Victoria, London. SW1W 9SZ or from their website <http://www.mhra.gov.uk/Howweregulate/Devices/index.htm>.
4. **Weights** - All weights specified in the Tariff in respect of appliances are exclusive of wrappings and packing material.
5. **Invoice price** - This is the price chargeable for the appliance to the contractor by the manufacturer, wholesaler or supplier.
6. **Technical Specifications** - Numbered Technical Specifications for the items in Part IXA/B/C were published separately in 1981 in loose leaf volume and a revised list was published in 1983. The Specifications will not be reprinted annually but individual specifications will be introduced, amended and reprinted, or withdrawn, as necessary. A list of Technical Specifications is given on page 251. CE marked Devices have shown that they meet the essential requirements of the Medical Devices Regulations 2002 and there is no further need for them to demonstrate compliance with other specifications, such as those referred to above.
7. **Nurse Prescribing** - See Part XVIIIB for details of Nurse Prescribing.

| <p>1. The term "bandage" used in a prescription form without qualification is to be interpreted to mean an Open-Wove Bandage, Type 1 BP 5cm x 5m. All bandages supplied are to be of the lengths and widths specified in the Tariff. Where a bandage longer than those specified in the Tariff is ordered, the number of bandages which will, in total, provide the length nearest to that ordered should be supplied. Where a bandage in a width other than those specified is ordered, the next wider specified width should be supplied.</p> <p>2. All bandages to be supplied completely wrapped as received from the manufacturer or wholesaler. Elastic Adhesive Bandages and Plaster of Paris Bandages to be supplied sealed in containers as received from the manufacturer or wholesaler. Except where otherwise stated all bandages possessing elasticity to be not less than 4.5m in length when fully stretched.</p> |                      |               |

## APPLIANCES

### CATHETERS, URINARY, URETHRAL

1. Catheter sizes are designated by the Charrière (Ch) gauge system - even numbers only. (The equivalent metric sizes for Charrière gauges 6-30 are 2.0mm-10.0mm, rising in 0.66mm). Where size is not stated by the prescriber, size 14 or 16 should be supplied.
2. If a balloon size is not stated by the prescriber when ordering a Foley catheter, a 10ml balloon catheter should be supplied - a 5ml balloon in the case of a paediatric catheter.
3. Where the brand is not stated by the prescriber, the basic price of each listed catheter Basic Price p supplied must not exceed:

|                                      |      |
|--------------------------------------|------|
| Nélaton (Male)                       | 42   |
| Nélaton (Female)                     | 38   |
| Nélaton (Paediatric)                 | 38   |
| Foley (Male) short/medium term       | 219△ |
| Foley (Female) short/medium term     | 219△ |
| Foley (Paediatric) short/medium term | 447  |
| Foley (Male) long term               | 429  |
| Foley (Female) long term             | 429  |
| Foley (Paediatric) long term         | 450  |

Where the specification of the Foley Catheter is not specified by the prescriber and not endorsed as short/medium or long term the dispenser will be paid no more than the lowest basic price listed which is currently 216p.

4. 5-units of plastic catheters, for example, represents on average one month's supply for patients practising intermittent catheterisation.
5. *For names and addresses of suppliers see pages 543-544*
6. *The rate of use of single use Nélaton catheters is approximately between 6 and 45 times greater than reusable Nélaton catheters for patients practising intermittent catheterisation.*

**All products in this category receive a home delivery fee of 340p unless marked with the symbol ♥. Products marked with this symbol receive a fee of 930p.**

**All products in this category must be dispensed with a supply of wipes and disposal bags.**

| <u>Class I</u>   | Light (Mild) Support<br>Compression at ankle 14mm Hg - 17mm Hg                                                                |
| Indications      | - Superficial or early Varices. Varicosis during pregnancy.                                                                   |
| Styles           | - Thigh length or below knee with knitted in heel (reciprocated).                                                             |
| <u>Class II</u>  | Medium (Moderate) Support<br>Compression at ankle 18mm Hg - 24mm Hg                                                           |
| Indications      | - Varices of medium severity<br>- Ulcer Treatment and prevention of recurrence. Mild oedema<br>- Varicosis during pregnancy   |
| Styles           | - Anklets and kneecaps: for soft tissue support<br>- Thigh length or below knee with knitted in heel (reciprocated)           |
| <u>Class III</u> | Strong support<br>Compression at ankle 25mm Hg - 35mm Hg                                                                      |
| Indications      | - Gross varices<br>- Post Thrombotic Venous Insufficiency<br>- Gross Oedema<br>- Ulcer Treatment and prevention of recurrence |
| Styles           | - Anklets and kneecaps: for soft tissue support<br>- Thigh length or below knee open or knitted in heel (reciprocated)        |

**General Notes**Prescribing

Before the prescription can be dispensed the following details must be given by the prescriber.

1. Quantity - single or pair
2. Article including any accessories (see pages 352-353 for knit, style and price)
3. Compression Class I, II or III

Constructional Specification

The complete structural specification, as well as performance requirements are contained in Drug Tariff Specification No. 40.

## APPLIANCES

**ELASTIC HOSIERY****Specially Made Garments**

1. In cases where stock sizes are not suitable for patients owing to irregular limb dimensions, surgical stockings in the prescribed compression class, to be made to the patient's individual measurements, should be specified.
2. All such garments are specially shaped during manufacture and may have a knitted in or open heel and open or knitted in toe.

**Sizing**

All articles must conform to BS 6612:1985 with regard to size designation.

**Labelling**

All articles must state clearly on the packaging that they conform with Drug Tariff Technical Specification No 40. The packaging should also provide clear washing instructions in conformity with handwashing at 40°C as defined in BS 2747 and washing instructions should be durably and clearly marked on each garment. The packaging should clearly define the garments percentage and fibre content.

**LYMPHOEDEMA GARMENTS**

*NB: Where a manufacturer's custom made garments are prescribed, including specifically prescribed additional options, the dispenser must ensure that full details are clearly endorsed on the FP10. The additional options for the base garments do not attract any additional prescription charges.*

*One prescription charge is payable where one or more of the same base garment is supplied. More than one prescription charge is payable if different base garments (including different compression of the same garment type) are ordered.*

*(See Part XVI sub-paragraph 12.13)*

## NB:

One 5m length of the relevant width is sufficient to provide two sets of dressing for a pair of limbs or a trunk.

Two full suits for an OS adult are provided from one pack each of the 7.5cm, 10cm and 25cm widths.

Two full suits for a standard sized adult are provided from one pack each of the 5cm, 7.5cm and 20cm widths.

Two full suits for a young child are provided from one pack each of the 5cm and 15cm widths.

| Swabs of folded 4-ply non woven fabric. These swabs are an alternative to gauze swabs, Type 13 Light BP 1988, for general and cleansing purposes. |                               |               |
| <b>Filmated Non-Woven Fabric Swab Non-Sterile</b>                                                                                                 |                               |               |
| Specification 29                                                                                                                                  | 10cm sq                       | 390           |
|                                                                                                                                                   | 100 pads per pkt              |               |
| Swabs of folded 8-ply non-woven viscose fabric containing a film of viscose fibres to increase absorbency.                                        |                               |               |

\*Notes: Sterile Swabs

(i) These sterile dressings are to be supplied in packs of 5 swabs 7.5cm square in a sealed packs as received from the manufacturer, supplier or wholesaler. They should not be confused with the non-sterile 10cm size in packets of 100 swabs used for general swabbing purposes.

(ii) The exact number of sterile swabs ordered are to be supplied except for orders not in multiples of 5 (See Note 2 page 250). A packet to be used for each sterile dressing operation; unused swabs to be discarded as unsterile.

## APPLIANCES

| Appliance                                                                                                                                                                            | Size or Weight | Basic Price p |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|---------------|
| <b>TRUSSES</b>                                                                                                                                                                       |                |               |
| (See Part 1, Clause 2 page 3)                                                                                                                                                        |                |               |
| Before the prescription can be dispensed three details must be given by the prescriber:                                                                                              |                |               |
| (i) Single, or double, and the side, if single                                                                                                                                       |                |               |
| (ii) Position, eg. Inguinal; Scrotal                                                                                                                                                 |                |               |
| (iii) Type, eg. truss; Elastic band truss                                                                                                                                            |                |               |
| In the event of a dispute between the patient and the pharmacy or the appliance contractor about whether the truss supplied is satisfactory, the doctor's decision shall be binding. |                |               |

**INCONTINENCE APPLIANCES****INCONTINENCE APPLIANCES**

1. Prescribers and suppliers should note that products not included in the list are not prescribable (See Part 1 Clause 2). Attention is drawn particularly to the information on the average life-in-use of each type of product which, together with the pack size, should enable prescribers to calculate their patients' requirements with reasonable accuracy.
2. Only basic information on each product has been provided and prescribers may on occasions wish to seek further information about certain products eg when assessing a patient for the first time. If so, this is always available from the manufacturers (addresses and telephone numbers are given at the end of the entry). Information may also be sought from community nurses and community pharmacists. Where possible manufacturers/suppliers' order code numbers have been shown but prescribers should note that the order numbers shown are not necessarily the full codes for the appliances they wish to order. This is particularly true of urinal systems where additional code numbers are usually necessary to denote variations from the basic design and individual sizes.
3. Prescribers are reminded that incontinence pads (including products not necessarily described as such but using the absorption principle), incontinence garments, skin wipes and occlusive devices such as female vaginal devices and male penile clamps are not prescribable under the Drug Tariff provisions.

**All products in Part IXB receive a home delivery fee of 340p.**

## CATHETER VALVES

**Warning: This product should not be used without assessment of bladder function by an appropriate medical professional.**

**Indications:** For use with an indwelling urethral catheter.

**Contraindications:**

Reduced bladder capacity

No bladder sensation

Cognitive impairment

Insufficient manual dexterity to operate the Catheter Valve

**Note:** It is recommended that the Catheter Valve is changed every 5 - 7 days.

**All products in this category must be dispensed with a supply of wipes and disposal bags.**

## INCONTINENCE APPLIANCES

## INCONTINENCE SHEATHS

The incontinence sheaths (also known as penile sheaths and external catheters) listed below, are, except where indicated, of the soft, flexible, latex type. Sheaths are available with and without fixing devices which may be applied externally (around the outside of the sheath) or internally (around the penis between the skin and the sheath). A list of fixing devices and other adhesion products is included in 'Incontinence Sheath Fixing Strips & Adhesives'.

**Note:** Each Sheath may be left in place for 1 to 3 days between changes.

The following symbols are used in this section

- ⊗ Non-adhesive sheath without liner
- ⊙ Sheath with self-adhesive liner
- ⋈ Sheath with separate double-sided adhesive strip
- ≡ Sheath with separate single-sided adhesive strip

## INCONTINENCE APPLIANCES

## LEG BAGS

The leg bags listed are suitable for collection of urine from indwelling catheters or incontinence sheaths. They are intended for daytime use although the larger bags may have adequate capacity for overnight use by some patients. The bags may be worn in different positions on the leg and the intended position (eg thigh, knee or calf) will determine the length of the inlet tube. The bags are attached to the leg by means of straps (included with each pack) which are generally either latex or foam with velcro fasteners.

**Note:** Plastic leg bags identified in the list with an asterisk\* may on average be used for 5-7 days. With proper care and cleansing rubber leg bags are re-usable for 4-6 months.

**Symbols used in this section**

S These leg bags are supplied sterile. This does not affect the guidance given in the note at the beginning.

\* Plastics

W Due to the size and weight of these bags when full, this capacity of bag should be prescribed only for wheelchair-bound patients.

**All products in this category must be dispensed with a supply of wipes and disposal bags.**

## INCONTINENCE APPLIANCES

## NIGHT DRAINAGE BAGS

These bags are suitable for night-time use for the collection of urine from indwelling catheters or incontinence sheaths. They are generally used in conjunction with a bag hanger which, being a nursing aid, is not prescribable. Supply arrangements for bag hangers tend to vary throughout the country but they are normally supplied through the community nursing service.

**Note:** The drainage bags listed below except non-drainable bags, have a life-in-use of, on average 5-7 days.

**Symbols used in this section**

- # Non-drainable bags
- S These Night Drainage Bags are supplied sterile
- Single Use Only
- \* Plastics

**All products in this category must be dispensed with a supply of wipes and disposal bags.**

## INCONTINENCE APPLIANCES

## SUSPENSORY SYSTEMS

These appliances should not be confused with leg bag garments which are not prescribable. Each system comprises a drainage bag with its means of support.

**Note:** The bags may be used for 5-7 days, sometimes longer, but the support systems will have a much longer life.

**Products marked with the symbol ■ in this category must be dispensed with a supply of wipes and disposal bags.**

## INCONTINENCE APPLIANCES

## URINAL SYSTEMS

The devices listed below are specialist appliances which comprise several components and need to be correctly fitted by someone competent to do so. Generally patients should have 2 appliances, one to wear and one to wash.

**Note:** In general the individual components can be prescribed separately for replacement purposes. With proper care and cleansing, each appliance should last for 6 months.

**Products marked with the following symbol ■ in this category must be dispensed with a supply of wipes and disposal bags.**

| Manufacturer       | Appliance                                                      | Order No.      | Quantity | List Price p |

## STOMA APPLIANCES

**STOMA APPLIANCES  
(Colostomy, Ileostomy, Urostomy)**

1. Prescribers and suppliers should note that products not included in the list are not prescribable (See Part I Clause 2).
2. Where the information is available, the "**Reference Capacity**" of a stoma bag will be given. This is intended to give a guide of comparison between different bag sizes, but *should not be taken to indicate actual usable capacity*. "Reference Capacity" shall be measured according to BS 7127:Part 101:1991, Appendix M, with the level of water set at the lower edge of the opening of wafer or flange.
3. Only basic information has been provided and prescribers may on occasions wish to seek further information about certain products eg when assessing a patient for the first time. If so this is always available from the manufacturers (addresses and telephone numbers are given at the end of the entry). Information may also be sought from stoma nurses and community pharmacists.
4. Where the prescriber has not specified the type of appliance or part thereof or accessory, the pharmacy or appliance contractor must endorse the prescription form stating the type supplied and submit the invoice if requested by the NHSBSA, NHS Prescription Services.

**All products in IXC receive a home delivery fee of 340p.**

All products with convexity should only be used after prior assessment of suitability by an appropriate medical professional.

## CHEMICAL REAGENTS

## APPROVED LIST OF CHEMICAL REAGENTS

The only chemical reagents which may be supplied as part of the pharmaceutical services are those listed in Part IXR of the Tariff.

The price listed in respect of a chemical reagent specified in the following list is the basic price on which payment will be calculated pursuant to Part I, Clause 5B for the dispensing of that chemical reagent.

The Notes to Part IX shall also apply to Part IXR when 'chemical reagent(s)' shall be substituted for 'appliance(s)'.

All quantities within this section are those of the manufacturer's original pack and are special containers (see Drug Tariff Part II, Clause 10B)

| Chemical Reagent                                                                                       | Quantity | Basic Price P |
|--------------------------------------------------------------------------------------------------------|----------|---------------|
| <b>DETECTION STRIPS, URINE</b>                                                                         |          |               |
| (Supplied with an instruction sheet, analysis record and colour chart)                                 |          |               |
