

Release date
9 July 2020

Number	Name	Description	Benefit / value
1	Acceptable Use Policy for applicants updated	The Acceptable Use Policy has been updated for new and current applicants using the service.	Applicants have up to date policy information.
2	Welsh translation	The first phase to allow applicants to switch from English to Welsh when using the service. They can also switch back to English. *Any information manually entered by an employer will not be translated.	Applicants who want to view the service in the Welsh language are now able to do so. *Not all of the information is translated initially, so users may see a mixture of English and Welsh. Further updates will be made to translate more of the service.
3	Create an account - Welsh translation	Applicants can now create an account when switched to the Welsh Language.	Applicants who want to use the service in the Welsh Language are able to do so. *Not all of the page is translated, the green button at the bottom of the page is in English. This will be amended in a future release.
4	Applicant create account / login screen clarity	Content on the screen for applicants so they are aware that they need to create a new account when using the new service.	Clarity for applicants so they know what is expected of them when using the new NHS Jobs service.
5	Bug fixes	Various bug fixes to improve the user journey: 1) Saving application information 2) Session time out 3) Accessibility improvements	1) Applicants can use previously saved information when completing applications. This makes the process quicker and easier as they don't have to input all their information when completing an application. 2) If an applicant is now idle on an application for 90 minutes or more, the system will display the correct timeout page. 3) Pages meet accessibility standards.
