

<b>Release date</b>
30 July 2020

<b>Number</b>	<b>Name</b>	<b>Description</b>	<b>Benefit / Value</b>
1	Pre-employment checks - Qualifications, Professional Registrations, Healthcare Professional Alert Notices (HPAN) and Occupational Health (OH).	Applicants have the ability to input pre-employment check details for professional registrations and employers can input details for qualifications, HPAN and OH once documentation from an applicant has been received.	Applicants and employers can now continue the process through the system without needing to complete this offline.
2	ESR applicant API calls	Automatically sends successful applicant details and employment check information to ESR.	Allows ESR to create a successful applicant record linked to the vacancy already created. Allows pre employment check information to be passed from NHS Jobs to ESR. Removes duplication for employer and applicant.
