

How to approve or reject a job listing approval in NHS Job user guide

This guide gives you instructions for how to approve or reject a job listing approval in the NHS Job service.

You'll need to respond to a job listing approval if:

- your organisation is using online approvals
- you're selected as an approver when the job listing is created and sent for approval

You'll need to check the listing details before you respond.

If your listing is approved, you can publish it to jobseekers to apply once all approvers have approved it.

If you reject the listing, it may be resent for approval or withdrawn to end the recruitment.

To find out which roles can do this, go to the '**Roles and permissions**' link in the '**Help and information**' section of the [employer dashboard](#).
