

## How to change and republish a job listing in NHS Jobs user guide

This guide gives you instructions for how to change and republish a job listing in the NHS Jobs service.

This guide only applies to a job listing published using NHS Jobs and doesn't apply to a job listing created using the Electronic Staff Record (ESR) system or using an Applicant Tracking System (ATS) provider.

To change and republish a job listing, you:

- must have a published job listing
- can only change the details if there's a 'Change' link

If you update a published advert, these changes will apply to all existing applicants.

To find out which roles can do this, go to the '**Roles and permissions**' link in the '**Help and information**' section of the [employer dashboard](#).
