

How to manage departments in NHS Jobs user guide

This guide gives you instructions for how to manage departments in the NHS Jobs service.

You can use departments and users to organise your recruitment tasks.

In your organisations account, you can create, change, and delete a department and its users. To add a user to a department, they must have a user account in your organisation's account.

To find out which roles can do this, go to the '**Roles and permissions**' link in the '**Help and information**' section of the employer dashboard.
