What does certification mean?

NHS Dental Services (NHSDS) check that a software system can transmit NHS dental claims to us. Certification is given when a software system has demonstrated that it can send satisfactory transmissions in both test and live environments.

When a software system is certified, a dental practice can use this to submit their claims to NHSDS electronically.

Certification only applies to the specific named software system and only to that part of the software system that formats, validates, and transmits claims to NHSDS.

It is not certification of approval or the software system, or supplier, as a whole.

Contact our Helpdesk for more information on **0300 330 1348**.

Contact Details

Find supplier contact details for certified software systems below, details have been listed alphabetically.

To have your company details updated, or to discuss receiving certification for a new product, please contact edisupport@nhsbsa.nhs.uk.
