Introduction

Who is this guide for?

The information in this guide is to assist in the completion of travel and accommodation expense claims by NHS Bursary funded medical or dental students who have incurred additional costs from attending a practice placement as part of their course.

It is also intended to provide general guidance for university administrators and staff who are involved in the arrangement and authorisation of student placements, including the authorisation of Travel and Dual Accommodation Expenses (TDAE) claims.

NHS Bursary funding is available to students studying to become a doctor or dentist who are eligible to receive NHS Bursary funding in the later stages of their course.

You must submit an NHS Bursary application for the 2025/26 academic year to enable us to determine your eligibility for all NHS Bursary allowances, including TDAE claims. If you are awarded at least the non-means tested grant element of the NHS Bursary you will be eligible to make a TDAE claim.

What type of placement costs can I claim?

You may be entitled to have some of the additional costs of journeys between your normal term time accommodation and your practice placement site reimbursed.

In addition, if you have to stay in temporary accommodation away from your normal term-time residence in order to attend your placement, you may also be able to receive reimbursement for these costs up to a set maximum rate.

Temporary accommodation means secondary accommodation taken by a student for the purposes of attending a compulsory practice placement which forms part of their course, where it is not practical for the student to travel to the placement site from their normal accommodation on a daily basis.

Practice placement refers to that part of your course which constitutes supervised clinical practice at premises other than those of the university you normally attend.

Excess travel costs

To claim reimbursement for travelling to your placement, the total cost of your daily return travel from your normal accommodation to your practice placement site **must exceed** the cost of your usual daily return travel to university.

Example 1:

Daily return journey	Cost per day
Term time accommodation to/from university	£3.00
Term time accommodation to/from placement	£2.50
No reimbursement will be made because the daily cost of travelling to the placement is less than the normal daily travel cost.	

Example 2:

Daily return journey	Cost per day
Term time accommodation to/from university	£3.00
Term time accommodation to/from placement	£7.50
Reimbursement of £4.50 per day of placement would be made because the daily cost of travelling to the placement is greater than the normal daily cost of travelling to university.	

Students attending part-time courses

If your attendance at university is part-time but you are required to attend your placement on a full-time basis, we may consider your weekly travel costs to university instead.

TDAE rates payable 2025/26

Cost	Claim limited to
Public transport	Actual cost
Own motor vehicle	42p per mile
Passengers (must be a NHS bursary student)	7.5p per mile
Pedal cycle	30p per mile
Parking and toll roads	Actual cost

Method of travel

Students are expected to travel by the cheapest form of transport available where it is practical to do so.

Public transport

If you travel to your placement by bus, train, tram, underground, etc. you must retain all your travel tickets/passes and include them with your claim form when you submit it to your university.

You may be reimbursed at the cheapest available rate if you use a more expensive method of travel.

For example, if you choose to use a taxi or private hire vehicle, you will be reimbursed at the equivalent cost of bus, train, or other standard method of public transport, where appropriate.

Your own vehicle

If you travel to placement in your own motor vehicle, it is your responsibility to ensure that you have adequate insurance cover for all risks associated with its use.

Students travelling to and from their placement site in their own vehicle do so at their own risk. The reimbursement of the costs of travel by private motor vehicle do not constitute any acceptance of liability by your university, the NHS Business Services Authority, or any other NHS body.

Please note: Your claim may be amended either by your university or by us, but we will inform you by email if we will be paying an amount to you that differs from your original claim.

Car hire

You can claim the cost to you of hiring the car, the appropriate mileage rate, and the cost of any car parking/tunnel tolls, if authorised by your university as the cheapest or most practical option available to travel to a specific placement.

Temporary accommodation

You may be able to claim the cost of staying in temporary accommodation near to your practice placement site (either in the UK or for an overseas placement) if it is not practical for you to travel there from your normal term time address daily.

Any temporary placement accommodation costs you claim for must be in addition to your usual term time accommodation costs unless your normal term time accommodation is your home. If you stay with your parent/s in their home just for the purpose of attending your placement, you will not be reimbursed for accommodation costs, but you can claim the cost of daily return journeys between this address and your placement site if these costs are more than the cost of your normal daily travel to university.

When making a claim, you must provide receipted evidence of the cost of your temporary accommodation*, which should be in the form of an invoice and include:

- your name
- the address of where you stayed
- the total cost you paid
- the dates from and to

Accommodation rates

Placement accommodation costs are reimbursed at the following maximum rates. These rates also apply for placements undertaken outside the UK.

Commercial accommodation (e.g. hotel, bed and breakfast)	Non-commercial accommodation
Up to £82.50 per night	Up to £37.50 per night

If you need to stay in temporary accommodation to attend your placement, you may also claim for travel costs as follows:

- any excess cost arising from one weekly return journey between your normal term time accommodation and your temporary placement accommodation **and**;
- any excess cost arising from daily travel between your temporary placement accommodation and your practice placement site.

Overseas placements

If you attend a practice placement outside the United Kingdom, the Isle of Man, or the Channel Islands, you may be able to claim reimbursement for certain essential associated costs, as shown below.

Reimbursable costs	
Accommodation	Paid at the equivalent of up to £82.50 GBP per night
Travel	<ul style="list-style-type: none"> • within the UK • within the host country • in excess of normal travel to university
Medical insurance	Actual cost
Medical tests	Actual cost
Vaccinations	Actual cost
Visa fees	Actual cost

*If you use non-commercial accommodation you must provide proof of the transaction via bank statement.

Read the declaration and if you are happy with the terms set out, sign and date it on page 10.

Deadlines

All claims must be submitted to your university within **nine months** of the last day of the placement period for which you are claiming, so don't complete or submit a claim form if the last day of the placement period you are claiming for was more than six months ago, as you will have missed the deadline. Late claims will not be processed.

Submitting your claim

Send your form to your university for authorisation.

They will check your claim and if they are happy with the information you have provided, they will authorise and send it to us directly.

Ensure you have

- included all receipts and any evidence of accommodation costs, where applicable;
- completed all the sections of the form that are relevant to you;
- taken copies of your form and any receipts/evidence before handing them to your university; this is important in case your form is lost or misplaced.

Timescales for processing TDAE claims

We aim to authorise TDAE claims within twenty working days of receipt from your university.

We will check your eligibility for reimbursement of TDAE and ensure the claim has been correctly completed and authorised.

Once we have assessed your claim, there will be three possible outcomes, as follows:

- **'Rejected'** means that your claim has been refused. If we decide a claim is not eligible, we will email you to explain the reason for this.
- **'Pended'** means that we need to have additional evidence or answers to outstanding questions before we can complete the claim. If the claim is pended, then we will contact either you or your university explaining what action is needed. If it is agreed that any amounts should be changed, we will follow this up with an email to you to explain and confirm the decision.
- **'Approved'** means that your claim has been approved, and you will now be able to view your entitlement in the Payment Details in your NHS Bursary Application System account. We will pay the total of the TDAE claim to you on the next weekly payment run following assessment (within ten working days of the claim being assessed). We will then contact you by email to confirm that your claim has been processed.

Additional guidance for universities

Policy

Any placement expenses claimed by students must be in accordance with the rules of the NHS Bursary Scheme as laid out by the Department of Health and Social Care. The latest NHS Bursary Scheme rules for these students can be **viewed on our website** under NHS Bursary – Policies.

Eligibility

Provided they are eligible for at least the non means tested grant, students will be able to make a claim towards the cost of their travel/accommodation as long as their claim meets the criteria described in this guide.

Travel

Travel by taxi

We will not normally reimburse any costs students have incurred when travelling by taxi. Generally, claims for taxi travel will usually be reimbursed at the equivalent mileage or public transport rates.

However, if you believe there are mitigating circumstances where a one-off or occasional use of a taxi during a placement was due to an unforeseen or unexpected circumstance, please provide a covering statement or email giving the full reason for the taxi use to enable us to consider the claim.

We are unable to guarantee that all taxi claims will be reimbursed, but they will be fully considered on a case-by-case basis.

Disabled Students Allowance

Students who have been awarded a DSA travel allowance for journeys to and from placement should not claim for the same journeys through TDAE.

Temporary placement accommodation

Students may claim for the cost of temporary accommodation on or near their practice placement site if it was not practical for them to travel to placement from their usual term time address.

‘Temporary accommodation’ means secondary accommodation taken by a student for the purposes of attending a compulsory practice placement. Students must show that their placement accommodation is an **added** cost in that they are also required to meet the cost of their normal term time accommodation at the same time. The only exception to this is if students normally live in the parental home during term time.

Students who stay in the parental home solely for the purpose of attending their placement cannot claim for any accommodation costs, but they may still be reimbursed for daily travel to placement, subject to the normal claim arrangements.

Evidence

Students should provide evidence of the receipted cost of the temporary placement accommodation costs. This should at least include their name, the name and address of where they stayed, the cost of the stay and the dates.

Travel whilst staying in temporary placement accommodation

Students who are claiming temporary placement accommodation costs may also claim travel expenses as follows:

- The cost of one weekly return journey between their normal accommodation and their temporary accommodation

- The cost of daily travel from their temporary accommodation to their placement site, where applicable, the cost for these journeys must be greater than the cost of daily travel from their normal term time accommodation to their usual place of study.

Overseas placements

Students who undertake their placement outside of the UK and Islands may be reimbursed for some of their additional travelling costs if these:

- have been necessarily incurred, either within the country where the placement is situated or within the UK and
- are in excess of the daily return cost of travel between their normal term-time accommodation and their university or usual study base.

The location of the placement does not affect students' entitlement to make a claim as similar types of costs can be reimbursed whether they are incurred within or outside the UK. The only stipulation is that the placement being undertaken is a necessary part of the course, whether the student chooses to undertake it in the UK or overseas.

In addition, any essential associated costs such as accommodation, medical insurance, tests, and any fees for visas may also be reimbursed for overseas placements.

We cannot reimburse students for the cost of air or other fares which have been incurred in travelling from the UK and Islands to the country hosting the placement, but internal air fares within the UK or the host country may be reimbursed if they are the cheapest form of travel when compared to other available methods.

Students cannot claim for refreshments, sleeper berths, phone calls and any other additional expenses related to the placement either overseas

or in the UK. This also includes placement arrangement / administration fees.

Authorisation

Please verify the claim at Section 9 by checking that it is correct and in accordance with the practice placement undertaken. In addition, the student should have signed and dated Section 8 of the form.

If you need to make any changes or amendments to the student's claim, please initial the change(s) and advise the student.

Sending TDAE forms to us

For reimbursement to be made, all claim forms must be received by the university within six months of the last day of the placement period for which students are claiming.

Once you are happy with the student's claim and it has been checked and verified, please complete the relevant spreadsheet with the claim details, as per normal procedures.

Timescales

We aim to assess all valid placement claims within twenty working days of the spreadsheets being received.

Help us to help your students

We appreciate universities ensuring placement claims are sent as regularly as possible to us. This helps avoid delays in students receiving payment and reduces enquiries from students to both universities and our call centre asking about receipt of their claim forms and dates of expected payment.

Where possible, please do keep your students informed of your timescales for submitting placement claim forms to us, as this helps manage expectation of when spreadsheets are likely to be reimbursed.
